ABOUT ME

I am a frontend web developer with over 10 years of experience, specializing in modern Javascript frameworks and libraries, such as Angular and React. That is not all I am capable of though, as I have experience in some backend technologies such as PHP and Node.

JOB EXPERIENCE

FRONTEND DEVELOPER

2016-2018 - Madison, WI

EnSync Energy Systems

Worked with the backend team to build scalable, high performance applications with high volume real-time data streams. Technologies included Angular 2+, Typescript, Sass/SCSS, Material Design, WebSockets and more.

LEAD DEVELOPER

2014-2016 - Remote

LWDV Platform

Built a variety of websites and mobile applications using multiple different technologies for clients around the world. Technologies included WordPress, PHP, SQL, Javascript, Cordova/Phonegap and more.

LEAD DEVELOPER

2012-2014 - Remote

Vashon Media

Created dozens of custom WordPress themes and plugins for a number of clients and internal projects. Technologies included WordPress, PHP, SQL, Javascript, and HTML/CSS.
